3/1/2015

This brochure provides information about the qualifications and business practices of Coker & Palmer, Inc.. If you have any questions about the contents of this brochure, please contact us at 601 354 0860 or dcoker@cokerpalmer.com. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Registration with the SEC or with any state securities authority does not imply a certain level of skill or training.

Additional information about Coker & Palmer, Inc. also is available on the SEC's website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as a CRD number. Our firm's CRD number is 029163.

Item 2 Material Changes

The SEC adopted "Amendments to Form ADV" in July, 2010. This Firm Brochure, dated 3/1/2015, is our new disclosure document prepared according to the SEC's new requirements and rules. As you will see, this document is a narrative that is substantially different in form and content, and includes some new information that we were not previously required to disclose.

After our initial filing of this Brochure, this Item will be used to provide our clients with a summary of new and/or updated information. We will inform you of the revision(s) based on the nature of the updated information.

Consistent with the new rules, we will ensure that you receive a summary of any material changes to this and subsequent Brochures within 120 days of the close of our business' fiscal year. Furthermore, we will provide you with other interim disclosures about material changes as necessary.

Item 4 Advisory Business

Coker & Palmer, Inc. is a SEC-registered investment adviser with its principal place of business located in Mississippi. Coker & Palmer, Inc. began conducting business in 2014.

Listed below are the firm's principal shareholders (i.e., those individuals and/or entities controlling 25% or more of this company).

- James David Coker, President
- James Young Palmer, Vice-President

Coker & Palmer, Inc. offers the following advisory services to our clients:

INVESTMENT SUPERVISORY SERVICES ("ISS") INDIVIDUAL PORTFOLIO MANAGEMENT

Our firm provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy and create and manage a portfolio based on that policy. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review and discuss a client's prior investment history, as well as family composition and background.

We manage these advisory accounts on a discretionary or non-discretionary basis. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations.

Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Our investment recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company and will generally include advice regarding the following securities:

- Exchange-listed securities
- Securities traded over-the-counter
- Corporate debt securities (other than commercial paper)
- Certificates of deposit
- Municipal securities
- Mutual fund shares
- United States governmental securities
- Options contracts on securities

Because some types of investments involve certain additional degrees of risk, they will only be implemented/recommended when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

INDIVIDUAL PORTFOLIO MANAGEMENT

Our firm provides non-continuous asset management of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on the client's particular circumstances are established, we develop the client's personal investment policy. We create and manage a portfolio based on that policy. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we may also review and discuss a client's prior investment history, as well as family composition and background.

We manage these advisory accounts on a discretionary or non-discretionary basis. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations.

Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Once the client's portfolio has been established, we review the portfolio quarterly basis, and if necessary, rebalance the portfolio on an annual basis, based on the client's individual needs.

Our investment recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company and will generally include advice regarding the following securities:

- Exchange-listed securities
- Securities traded over-the-counter
- Corporate debt securities (other than commercial paper)
- Certificates of deposit
- Municipal securities
- Mutual fund shares
- United States governmental securities
- Options contracts on securities

Because some types of investments involve certain additional degrees of risk, they will only be implemented when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

MANAGER SELECTION PROGRAMS

We also offer advisory management services to our clients through the Manager Selection Programs (hereinafter, "Programs").

Our firm provides the client with an asset allocation strategy developed through personal discussions in which goals and objectives based on the client's particular circumstances are established. This asset allocation strategy is drafted into the client's Personal Investment Policy Statement ("PIPS").

Based on the client's individual circumstances and needs (as exhibited in the client's PIPS) we will then perform management searches of various unaffiliated registered investment advisers to identify which registered

investment adviser's portfolio management style is appropriate for that client. Factors considered in making this determination include account size, risk tolerance, the opinion of each client and the investment philosophy of the selected registered investment adviser. Clients should refer to the selected registered investment adviser's Firm Brochure or other disclosure document for a full description of the services offered. We are available to meet with clients on a regular basis, or as determined by the client, to review the account.

Once we determine the most suitable investment adviser(s) for the client, we provide the selected adviser(s) with the client's PIPS. The adviser(s) then creates and manages the client's portfolio based on the client's individual needs as exhibited in the PIPS.

We monitor the performance of the selected registered investment adviser(s). If we determine that a particular selected registered investment adviser(s) is not providing sufficient management services to the client, or is not managing the client's portfolio in a manner consistent with the client's PIPS, we may suggest that the client contract with a different registered investment adviser and/or program sponsor. Under this scenario, our firm assists the client in selecting a new registered investment adviser and/or program. However, any move to a new registered investment adviser and/or program is solely at the discretion of the client.

FINANCIAL PLANNING

We provide financial planning services. Financial planning is a comprehensive evaluation of a client's current and future financial state by using currently known variables to predict future cash flows, asset values and withdrawal plans. Through the financial planning process, all questions, information and analysis are considered as they impact and are impacted by the entire financial and life situation of the client. Clients purchasing this service receive a written report which provides the client with a detailed financial plan designed to assist the client achieve his or her financial goals and objectives.

In general, the financial plan can address any or all of the following areas:

- **PERSONAL:** We review family records, budgeting, personal liability, estate information and financial goals.
- **TAX & CASH FLOW:** We analyze the client's income tax and spending and planning for past, current and future years; then illustrate the impact of various investments on the client's current income tax and future tax liability.
- **INVESTMENTS:** We analyze investment alternatives and their effect on the client's portfolio.
- **INSURANCE:** We review existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home and automobile.
- **RETIREMENT:** We analyze current strategies and investment plans to help the client achieve his or her retirement goals.
- **DEATH & DISABILITY:** We review the client's cash needs at death, income needs of surviving dependents, estate planning and disability income.
- **ESTATE:** We assist the client in assessing and developing long-term strategies, including as appropriate, living trusts, wills, review estate tax, powers of attorney, asset protection plans, nursing homes, Medicaid and elder law.

We gather required information through in-depth personal interviews. Information gathered includes the client's current financial status, tax status, future goals, returns objectives and attitudes towards risk. We carefully review

documents supplied by the client, including a questionnaire completed by the client, and prepare a written report. Should the client choose to implement the recommendations contained in the plan, we suggest the client work closely with his/her attorney, accountant, insurance agent, and/or stockbroker. Implementation of financial plan recommendations is entirely at the client's discretion.

We also provide general non-securities advice on topics that may include tax and budgetary planning, estate planning and business planning.

- Exchange-listed securities
- Securities traded over-the-counter
- Corporate debt securities (other than commercial paper)
- Certificates of deposit
- Municipal securities
- Variable life insurance
- Variable annuities
- Mutual fund shares
- United States governmental securities
- Options contracts on securities

Typically the financial plan is presented to the client within six months of the contract date, provided that all information needed to prepare the financial plan has been promptly provided.

Financial Planning recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company. All recommendations are of a generic nature.

AMOUNT OF MANAGED ASSETS

As of 12/31/2014, we were actively managing \$119,954,577 of clients' assets on a discretionary basis.

Item 5 Fees and Compensation

INVESTMENT SUPERVISORY SERVICES ("ISS") INDIVIDUAL PORTFOLIO MANAGEMENT FEES

Our annual fees for Investment Supervisory Services are based upon a percentage of assets under management and generally range from 0.50% to 3.00%.

Performance-Based Fees

Our performance-based fee schedule is based on a percentage of assets under management plus a percentage of the difference between a client's account and that of an appropriate index. The index will be chosen by Coker & Palmer, Inc. and the client based on the nature of the investment strategy to be used.

The fees charged for this service will be determined by the client's individual circumstances and will never exceed 25% of the account's performance above an appropriate index. The actual fees are disclosed to the client

before entering into this type of arrangement and are detailed in the client's Investment Management Agreement. The percentage of assets under management is billed quarterly, in arrears.

The client must understand the proposed method of compensation and its risks prior to entering into the contract. Accordingly, clients paying performance-based fees are directed to the "Performance-Based Fees" section (Item 6) below for more comprehensive disclosures, including potential conflicts of interest resulting from this type of compensation.

To qualify for this type of fee schedule, a client must either demonstrate a net worth of at least \$2,000,000 or must have at least \$1,000,000 under management.

Clients who elect to terminate their contracts will be charged a performance-based fee based on the performance of the account for the measuring period going back from the termination date and pro-rated from the date on which the performance-based fee was previously assessed by our firm.

In measuring the client's assets for the calculation of performance-based fees, Coker & Palmer, Inc. shall include: for securities for which market quotations are readily available, the realized capital losses and unrealized capital losses of securities over the period and, if the unrealized capital appreciation of the securities over this period is included, the unrealized capital depreciation of securities over the period.

The performance-based fee may create an incentive for Coker & Palmer, Inc. to recommend investments which may be riskier or more speculative than those which would be recommended under a different fee arrangement.

PERFORMANCE-BASED FEES WILL ONLY BE CHARGED IN ACCORDANCE WITH THE PROVISIONS OF REG. 205-3 OF THE INVESTMENT ADVISERS ACT OF 1940 AND/OR APPLICABLE STATE REGULATIONS. THE FEES WILL NOT BE OFFERED TO ANY CLIENT RESIDING IN A STATE IN WHICH SUCH FEES ARE PROHIBITED.

A minimum of **\$1,000,000** of assets under management is required for this service. This account size may be negotiable under certain circumstances. Coker & Palmer, Inc. may group certain related client accounts for the purposes of achieving the minimum account size and determining the annualized fee.

Limited Negotiability of Advisory Fees: Although Coker & Palmer, Inc. has established the aforementioned fee schedule(s), we retain the discretion to negotiate alternative fees on a client-by-client basis. Client facts, circumstances and needs are considered in determining the fee schedule. These include the complexity of the client, assets to be placed under management, anticipated future additional assets; related accounts; portfolio style, account composition, reports, among other factors. The specific annual fee schedule is identified in the contract between the adviser and each client.

We may group certain related client accounts for the purposes of achieving the minimum account size requirements and determining the annualized fee.

Discounts, not generally available to our advisory clients, may be offered to family members and friends of associated persons of our firm.

PORTFOLIO MANAGEMENT SERVICES FEES

Our annual fees for Portfolio Management Services are based upon a percentage of assets under management and generally range from 0.50% to 3.00%.

Our fees are billed quarterly, in advance, at the beginning of each calendar quarter based upon the value (market value or fair market value in the absence of market value), of the client's account at the end of the previous quarter. Fees will be debited from the account in accordance with the client authorization in the Client Services Agreement.

A minimum of **\$50,000** of assets under management is required for this service. This account size may be

negotiable under certain circumstances. Coker & Palmer, Inc. may group certain related client accounts for the purposes of achieving the minimum account size and determining the annualized fee.

Limited Negotiability of Advisory Fees: Although Coker & Palmer, Inc. has established the aforementioned fee schedule(s), we retain the discretion to negotiate alternative fees on a client-by-client basis. Client facts, circumstances and needs are considered in determining the fee schedule. These include the complexity of the client, assets to be placed under management, anticipated future additional assets; related accounts; portfolio style, account composition, reports, among other factors. The specific annual fee schedule is identified in the contract between the adviser and each client.

We may group certain related client accounts for the purposes of achieving the minimum account size requirements and determining the annualized fee.

Discounts, not generally available to our advisory clients, may be offered to family members and friends of associated persons of our firm.

FINANCIAL PLANNING FEES

Coker & Palmer, Inc.'s Financial Planning fee is determined based on the nature of the services being provided and the complexity of each client's circumstances. All fees are agreed upon prior to entering into a contract with any client.

Our Financial Planning fees are calculated and charged on a fixed fee basis, typically ranging from \$500 to \$2,000, depending on the specific arrangement reached with the client.

We may request a retainer upon completion of our initial fact-finding session with the client; however, advance payment will never exceed \$500 for work that will not be completed within six months. The balance is due upon completion of the plan.

Fees Offset By Commissions: If a Financial Planning client executes recommended securities transactions through associated persons of our firm in their separate capacities as registered representatives of a broker dealer, these individuals will earn commissions which are separate and distinct from fees charged for advisory services. In some instances, depending on the size of the transaction, advisory fees will be discounted, at our discretion, for commissions earned. Commissions will not be credited towards future advisory fees.

The client is billed quarterly in advance based on our total estimated Financial Planning fees.

Management personnel and other related persons of our firm are licensed as registered representatives of a broker-dealer and/or licensed as insurance agents or brokers. In their separate capacity(ies), these individuals are able to implement investment recommendations for advisory clients for separate and typical compensation (i.e., commissions, 12b-1 fees or other sales-related forms of compensation). This presents a conflict of interest to the extent that these individuals recommend that a client invest in a security which results in a commission being paid to the individuals. Clients are not under any obligation to engage these individuals when considering implementation of advisory recommendations. The implementation of any or all recommendations is solely at the discretion of the client.

Other Revenue

Management personnel and other related persons of our firm are licensed as registered representatives of a broker-dealer and, acting in that capacity, they can implement transactions for our advisory clients. In so doing, these individuals will earn separate compensation in the form of commissions and/or 12b-1 fees (trail fees earned from the sale of mutual funds and/or ETFs). These commission fees represent more than half of our firm's annual revenue.

While these individuals endeavor at all times to put the interest of the clients first as part of Coker & Palmer, Inc.'s fiduciary duty, clients should be aware that the receipt of additional compensation itself creates a conflict of interest, and may affect the judgment of these individuals when making recommendations. Clients, however, are not under any obligation to engage these individuals when considering implementation of advisory

recommendations.

Recognizing that these types of compensation can create a conflict of interest, it is our firm's policy to offset our asset-based advisory fees for the amount of commission fees we receive. However, commissions will not be credited towards future advisory fees.

GENERAL INFORMATION

Termination of the Advisory Relationship: A client agreement may be canceled at any time, by either party, for any reason upon receipt of 30 days written notice. As disclosed above, certain fees are paid in advance of services provided. Upon termination of any account, any prepaid, unearned fees will be promptly refunded. In calculating a client's reimbursement of fees, we will pro rate the reimbursement according to the number of days remaining in the billing period.

Mutual Fund Fees: All fees paid to Coker & Palmer, Inc. for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds and/or ETFs to their shareholders. These fees and expenses are described in each fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. If the fund also imposes sales charges, a client may pay an initial or deferred sales charge. A client could invest in a mutual fund directly, without our services. In that case, the client would not receive the services provided by our firm which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives. Accordingly, the client should review both the fees charged by the funds and our fees to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

Wrap Fee Programs and Separately Managed Account Fees: Clients participating in separately managed account programs may be charged various program fees in addition to the advisory fee charged by our firm. Such fees may include the investment advisory fees of the independent advisers, which may be charged as part of a wrap fee arrangement. In a wrap fee arrangement, clients pay a single fee for advisory, brokerage and custodial services. Client's portfolio transactions may be executed without commission charge in a wrap fee arrangement. In evaluating such an arrangement, the client should also consider that, depending upon the level of the wrap fee charged by the broker-dealer, the amount of portfolio activity in the client's account, and other factors, the wrap fee may or may not exceed the aggregate cost of such services if they were to be provided separately. We will review with clients any separate program fees that may be charged to clients.

Additional Fees and Expenses: In addition to our advisory fees, clients are also responsible for the fees and expenses charged by custodians and imposed by broker dealers, including, but not limited to, any transaction charges imposed by a broker dealer with which an independent investment manager effects transactions for the client's account(s). Please refer to the "Brokerage Practices" section (Item 12) of this Form ADV for additional information.

ERISA Accounts: Coker & Palmer, Inc. is deemed to be a fiduciary to advisory clients that are employee benefit plans or individual retirement accounts (IRAs) pursuant to the Employee Retirement Income and Securities Act ("ERISA"), and regulations under the Internal Revenue Code of 1986 (the "Code"), respectively. . As such, our firm is subject to specific duties and obligations under ERISA and the Internal Revenue Code that include among other things, restrictions concerning certain forms of compensation. To avoid engaging in prohibited transactions, Coker & Palmer, Inc. may only charge fees for investment advice about products for which our firm and/or our related persons do not receive any commissions or 12b-1 fees, or conversely, investment advice about products for which our firm and/or our related persons receive commissions or 12b-1 fees, however, only when such fees are used to offset Coker & Palmer, Inc.'s advisory fees.

Advisory Fees in General: Clients should note that similar advisory services may (or may not) be available from other registered (or unregistered) investment advisers for similar or lower fees.

Limited Prepayment of Fees: Under no circumstances do we require or solicit payment of fees in excess of

\$1200 more than six months in advance of services rendered.

Item 6 Performance-Based Fees and Side-By-Side Management

PERFORMANCE-BASED FEES

As we disclosed in Item 5 of this Brochure, our firm accepts a performance-based fee from the client. Such a performance-based fee is calculated based on a share of capital gains on or capital appreciation of the assets of the client. To qualify for a performance-based fee arrangement, a client (or Fund investor, as applicable) must either demonstrate a net worth of at least \$2,000,000 or must have at least \$1,000,000 under management immediately after entering into a management agreement with us.

Clients should be aware that performance-based fee arrangement may create an incentive for us to recommend investments which may be riskier or more speculative than those which would be recommended under a different fee arrangement.

Furthermore, as we also have clients who do not pay performance-based fees, we have an incentive to favor accounts that do pay such fees because compensation we receive from these clients is more directly tied to the performance of their accounts.

Item 7 Types of Clients

Coker & Palmer, Inc. provides advisory services to the following types of clients:

- Individuals (other than high net worth individuals)
- High net worth individuals
- Pension and profit sharing plans (other than plan participants)
- Other pooled investment vehicles (e.g., hedge funds)
- Charitable organizations
- Corporations or other businesses not listed above

As previously disclosed in Item 5, our firm has established certain initial minimum account requirements, based on the nature of the service(s) being provided. For a more detailed understanding of those requirements, please review the disclosures provided in each applicable service.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

METHODS OF ANALYSIS

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

Charting. In this type of technical analysis, we review charts of market and security activity in an attempt to identify when the market is moving up or down and to predict how long the trend may last and when that trend might reverse.

Fundamental Analysis. We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management

of the company itself) to determine if the company is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell).

Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.

Technical Analysis. We analyze past market movements and apply that analysis to the present in an attempt to recognize recurring patterns of investor behavior and potentially predict future price movement.

Technical analysis does not consider the underlying financial condition of a company. This presents a risk in that a poorly-managed or financially unsound company may underperform regardless of market movement.

Quantitative Analysis. We use mathematical models in an attempt to obtain more accurate measurements of a company's quantifiable data, such as the value of a share price or earnings per share, and predict changes to that data.

A risk in using quantitative analysis is that the models used may be based on assumptions that prove to be incorrect.

Qualitative Analysis. We subjectively evaluate non-quantifiable factors such as quality of management, labor relations, and strength of research and development factors not readily subject to measurement, and predict changes to share price based on that data.

A risk is using qualitative analysis is that our subjective judgment may prove incorrect.

Asset Allocation. Rather than focusing primarily on securities selection, we attempt to identify an appropriate ratio of securities, fixed income, and cash suitable to the client's investment goals and risk tolerance.

A risk of asset allocation is that the client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of securities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the client's goals.

Mutual Fund and/or ETF Analysis. We look at the experience and track record of the manager of the mutual fund or ETF in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We also look at the underlying assets in a mutual fund or ETF in an attempt to determine if there is significant overlap in the underlying investments held in another fund(s) in the client's portfolio. We also monitor the funds or ETFs in an attempt to determine if they are continuing to follow their stated investment strategy.

A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security, increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF, which could make the holding(s) less suitable for the client's portfolio.

Third-Party Money Manager Analysis. We examine the experience, expertise, investment philosophies, and past performance of independent third-party investment managers in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We monitor the manager's underlying holdings, strategies, concentrations and leverage as part of our overall periodic risk assessment. Additionally, as part of our due-diligence process, we survey the manager's compliance and business enterprise risks.

A risk of investing with a third-party manager who has been successful in the past is that he/she may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a third-party manager's portfolio, there is also a risk that a manager may deviate from the stated investment mandate or

strategy of the portfolio, making it a less suitable investment for our clients. Moreover, as we do not control the manager's daily business and compliance operations, we may be unaware of the lack of internal controls necessary to prevent business, regulatory or reputational deficiencies.

Risks for all forms of analysis. Our securities analysis methods rely on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

INVESTMENT STRATEGIES

We use the following strategy(ies) in managing client accounts, provided that such strategy(ies) are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

Long-term purchases. We purchase securities with the idea of holding them in the client's account for a year or longer. Typically we employ this strategy when:

- we believe the securities to be currently undervalued, and/or
- we want exposure to a particular asset class over time, regardless of the current projection for this class.

A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantage of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell.

Short-term purchases. When utilizing this strategy, we purchase securities with the idea of selling them within a relatively short time (typically a year or less). We do this in an attempt to take advantage of conditions that we believe will soon result in a price swing in the securities we purchase.

Trading. We purchase securities with the idea of selling them very quickly (typically within 30 days or less). We do this in an attempt to take advantage of our predictions of brief price swings.

Margin transactions. We will purchase stocks for your portfolio with money borrowed from your brokerage account. This allows you to purchase more stock than you would be able to with your available cash, and allows us to purchase stock without selling other holdings.

Option writing. We may use options as an investment strategy. An option is a contract that gives the buyer the right, but not the obligation, to buy or sell an asset (such as a share of stock) at a specific price on or before a certain date. An option, just like a stock or bond, is a security. An option is also a derivative, because it derives its value from an underlying asset.

The two types of options are calls and puts:

- A call gives us the right to buy an asset at a certain price within a specific period of time. We will buy a call if we have determined that the stock will increase substantially before the option expires.
- A put gives us the holder the right to sell an asset at a certain price within a specific period of time. We will buy a put if we have determined that the price of the stock will fall before the option expires.

We will use options to speculate on the possibility of a sharp price swing. We will also use options to "hedge" a purchase of the underlying security; in other words, we will use an option purchase to limit the potential upside and downside of a security we have purchased for your portfolio.

We use "covered calls", in which we sell an option on security you own. In this strategy, you receive a fee for

making the option available, and the person purchasing the option has the right to buy the security from you at an agreed-upon price.

We use a "spreading strategy", in which we purchase two or more option contracts (for example, a call option that you buy and a call option that you sell) for the same underlying security. This effectively puts you on both sides of the market, but with the ability to vary price, time and other factors.

Risk of Loss. Securities investments are not guaranteed and you may lose money on your investments. We ask that you work with us to help us understand your tolerance for risk.

Item 9 Disciplinary Information

We are required to disclose any legal or disciplinary events that are material to a client's or prospective client's evaluation of our advisory business or the integrity of our management.

The following are disciplinary events relating to our firm and/or our management personnel:

COKER & PALMER, INC. FAILED TO REPORT TO THE TRADE REPORTING AND COMPLIANCE ENGINE (TRACE) TRANSACTIONS IN TRACE-ELIGIBLE SECURITIES WITHIN 15 MINUTES OF TIME OF EXECUTION. WITHOUT ADMITTING OR DENYING THE FINDINGS, THE FIRM CONSENTED TO THE DESCRIBED SANCTIONS AND TO THE ENTRY OF FINDINGS; THEREFORE, THE FIRM IS CENSURED AND FINED \$7,500. Matter Resolved November 9, 2010.

FOR THE PERIOD MARCH 14, 2006 TO OCTOBER 10, 2006, THE FIRM HAD FAILED TO PROVIDE ANY DISCLOSURE CONCERNING RISK TO PRICE TARGET OR HAD PROVIDED SUCH DISCLOSURE IN AN IMPROPER FORMAT AND THAT THE FIRM HAD FAILED TO PROVIDE DISCLOSURE OF PERCENTAGES OF ALL SECURITIES RATED BY THE FIRM TO WHICH IT HAD ASSIGNED A BUY, HOLD OR SELL RATING AND RELATED INVESTMENT BANKING DISCLOSURES IN RESEARCH REPORTS. FINE OF \$10,000 WAS IMPOSED. THIS AMOUNT WAS PAID BY THE FIRM ON 4/24/2007.

Item 10 Other Financial Industry Activities and Affiliations

FIRM Registrations:

In addition to Coker & Palmer, Inc. being a registered investment adviser, our firm is registered as a FINRA member broker-dealer. A list of affiliated broker-dealers is specifically disclosed in Section 7.A. on Schedule D of Form ADV, Part 1, which can be accessed by following the directions provided on the Cover Page of this Firm Brochure.

MANAGEMENT PERSONNEL Registrations:

Management personnel of our firm are separately licensed as registered representatives of Coker & Palmer, Inc., an affiliated FINRA member broker-dealer.

While Coker & Palmer, Inc. and these individuals endeavor at all times to put the interest of the clients first as part of our fiduciary duty, clients should be aware that the receipt of additional compensation itself creates a conflict of interest, and may affect the judgment of these individuals when making recommendations.

Coker & Palmer, Inc. a registered investment adviser and FINRA member broker-dealer; and

Where appropriate, Coker & Palmer, Inc. and our employees may recommend the various investment and investment-related services of the Related Companies to our advisory clients. The Related Companies and their employees may also recommend the advisory services of our firm to their clients. The services provided by the

Related Companies are separate and distinct from our advisory services, and are provided for separate and additional compensation. There may also be arrangements between Coker & Palmer, Inc. and these Related Companies where Coker & Palmer, Inc. and/or the Related Companies and their employees receive payment in exchange for client referrals. No Coker & Palmer, Inc. client is obligated to use the services of any of the Related Companies.

In addition, the management persons and other employees of Coker & Palmer, Inc. are: (1) management persons and registered representatives of ONE, a FINRA member broker-dealer; and, (2) management persons and insurance agents of TWO, a licensed insurance agency. These individuals may also be insurance agents for one or more insurance companies. In their separate capacities as registered representatives and/or insurance agents, these individuals are able to effect securities transactions and/or purchase insurance and insurance-related investment products for Coker & Palmer, Inc.'s advisory clients, for which these individuals will receive separate and additional compensation. Clients, however, are not under any obligation to engage these individuals when considering the purchase/sale of securities or insurance.

Clients should be aware that the receipt of additional compensation by Coker & Palmer, Inc. and its management persons or employees creates a conflict of interest that may impair the objectivity of our firm and these individuals when making advisory recommendations. Coker & Palmer, Inc. endeavors at all times to put the interest of its clients first as part of our fiduciary duty as a registered investment adviser; we take the following steps to address this conflict:

- we disclose to clients the existence of all material conflicts of interest, including the potential for our firm and our employees to earn compensation from advisory clients in addition to our firm's advisory fees;
- we disclose to clients that they are not obligated to purchase recommended investment products from our employees or affiliated companies;
- we collect, maintain and document accurate, complete and relevant client background information, including the client's financial goals, objectives and risk tolerance;
- our firm's management conducts regular reviews of each client account to verify that all recommendations made to a client are suitable to the client's needs and circumstances;
- we require that our employees seek prior approval of any outside employment activity so that we may ensure that any conflicts of interests in such activities are properly addressed;
- we periodically monitor these outside employment activities to verify that any conflicts of interest continue to be properly addressed by our firm; and
- we educate our employees regarding the responsibilities of a fiduciary, including the need for having a reasonable and independent basis for the investment advice provided to clients.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Our firm has adopted a Code of Ethics which sets forth high ethical standards of business conduct that we require of our employees, including compliance with applicable federal securities laws.

Coker & Palmer, Inc. and our personnel owe a duty of loyalty, fairness and good faith towards our clients, and have an obligation to adhere not only to the specific provisions of the Code of Ethics but to the general principles that guide the Code.

Our Code of Ethics includes policies and procedures for the review of quarterly securities transactions reports as well as initial and annual securities holdings reports that must be submitted by the firm's access persons. Among other things, our Code of Ethics also requires the prior approval of any acquisition of securities in a limited offering (e.g., private placement) or an initial public offering. Our code also provides for oversight, enforcement and recordkeeping provisions.

Coker & Palmer, Inc.'s Code of Ethics further includes the firm's policy prohibiting the use of material non-public

information. While we do not believe that we have any particular access to non-public information, all employees are reminded that such information may not be used in a personal or professional capacity.

A copy of our Code of Ethics is available to our advisory clients and prospective clients. You may request a copy by email sent to dcoker@cokerpalmer.com, or by calling us at 601 354 0860.

Coker & Palmer, Inc. and individuals associated with our firm are prohibited from engaging in principal transactions.

Coker & Palmer, Inc. and individuals associated with our firm are prohibited from engaging in agency cross transactions.

Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of our employees will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

Our firm and/or individuals associated with our firm may buy or sell for their personal accounts securities identical to or different from those recommended to our clients. In addition, any related person(s) may have an interest or position in a certain security(ies) which may also be recommended to a client.

It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account, thereby preventing such employee(s) from benefiting from transactions placed on behalf of advisory accounts.

We may aggregate our employee trades with client transactions where possible and when compliant with our duty to seek best execution for our clients. In these instances, participating clients will receive an average share price and transaction costs will be shared equally and on a pro-rata basis. In the instances where there is a partial fill of a particular batched order, we will allocate all purchases pro-rata, with each account paying the average price. Our employee accounts will be included in the pro-rata allocation.

As these situations represent actual or potential conflicts of interest to our clients, we have established the following policies and procedures for implementing our firm's Code of Ethics, to ensure our firm complies with its regulatory obligations and provides our clients and potential clients with full and fair disclosure of such conflicts of interest:

1. No principal or employee of our firm may put his or her own interest above the interest of an advisory client.
2. No principal or employee of our firm may buy or sell securities for their personal portfolio(s) where their decision is a result of information received as a result of his or her employment unless the information is also available to the investing public.
3. It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account. This prevents such employees from benefiting from transactions placed on behalf of advisory accounts.
4. Our firm requires prior approval for any IPO or private placement investments by related persons of the firm.
5. We maintain a list of all reportable securities holdings for our firm and anyone associated with this advisory practice that has access to advisory recommendations ("access person"). These holdings are reviewed on a regular basis by our firm's Chief Compliance Officer or his/her designee.
6. We have established procedures for the maintenance of all required books and records.
7. All clients are fully informed that related persons may receive separate commission compensation when effecting transactions during the implementation process.
8. Clients can decline to implement any advice rendered, except in situations where our firm is granted discretionary authority.
9. All of our principals and employees must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices.
10. We require delivery and acknowledgement of the Code of Ethics by each supervised person of our firm.
11. We have established policies requiring the reporting of Code of Ethics violations to our senior management.
12. Any individual who violates any of the above restrictions may be subject to termination.

As disclosed in the preceding section of this Brochure (Item 10), related persons of our firm are separately

registered as securities representatives of a broker-dealer and/or licensed as an insurance agent/broker of various insurance companies. Please refer to Item 10 for a detailed explanation of these relationships and important conflict of interest disclosures.

Item 12 Brokerage Practices

Coker & Palmer, Inc. requires that clients provide us with written authority to determine the broker-dealer to use and the commission costs that will be charged to our clients for these transactions.

These clients must include any limitations on this discretionary authority in this written authority statement. Clients may change/amend these limitations as required. Such amendments must be provided to us in writing.

Coker & Palmer, Inc. will block trades where possible and when advantageous to clients. This blocking of trades permits the trading of aggregate blocks of securities composed of assets from multiple client accounts, so long as transaction costs are shared equally and on a pro-rated basis between all accounts included in any such block.

Block trading may allow us to execute equity trades in a timelier, more equitable manner, at an average share price. Coker & Palmer, Inc. will typically aggregate trades among clients whose accounts can be traded at a given broker, and generally will rotate or vary the order of brokers through which it places trades for clients on any particular day. Coker & Palmer, Inc.'s block trading policy and procedures are as follows:

- 1) Transactions for any client account may not be aggregated for execution if the practice is prohibited by or inconsistent with the client's advisory agreement with Coker & Palmer, Inc., or our firm's order allocation policy.
- 2) The trading desk in concert with the portfolio manager must determine that the purchase or sale of the particular security involved is appropriate for the client and consistent with the client's investment objectives and with any investment guidelines or restrictions applicable to the client's account.
- 3) The portfolio manager must reasonably believe that the order aggregation will benefit, and will enable Coker & Palmer, Inc. to seek best execution for each client participating in the aggregated order. This requires a good faith judgment at the time the order is placed for the execution. It does not mean that the determination made in advance of the transaction must always prove to have been correct in the light of a "20-20 hindsight" perspective. Best execution includes the duty to seek the best quality of execution, as well as the best net price.
- 4) Prior to entry of an aggregated order, a written order ticket must be completed which identifies each client account participating in the order and the proposed allocation of the order, upon completion, to those clients.
- 5) If the order cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated pro rata among the participating client accounts in accordance with the initial order ticket or other written statement of allocation. However, adjustments to this pro rata allocation may be made to participating client accounts in accordance with the initial order ticket or other written statement of allocation. Furthermore, adjustments to this pro rata allocation may be made to avoid having odd amounts of shares held in any client account, or to avoid excessive ticket charges in smaller accounts.
- 6) Generally, each client that participates in the aggregated order must do so at the average price for all separate transactions made to fill the order, and must share in the commissions on a pro rata basis in proportion to the client's participation. Under the client's agreement with the custodian/broker, transaction costs may be based on the number of shares traded for each client.
- 7) If the order will be allocated in a manner other than that stated in the initial statement of allocation, a written explanation of the change must be provided to and approved by the Chief Compliance Officer no later than the morning following the execution of the aggregate trade.
- 8) Coker & Palmer, Inc.'s client account records separately reflect, for each account in which the aggregated transaction occurred, the securities which are held by, and bought and sold for, that account.

9) Funds and securities for aggregated orders are clearly identified on Coker & Palmer, Inc.'s records and to the broker-dealers or other intermediaries handling the transactions, by the appropriate account numbers for each participating client.

10) No client or account will be favored over another.

Item 13 Review of Accounts

PORTFOLIO MANAGEMENT SERVICES

REVIEWS: While the underlying securities within Individual Portfolio Management Services accounts are continually monitored, these accounts are reviewed annually. Accounts are reviewed in the context of each client's stated investment objectives and guidelines. More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, or the market, political or economic environment.

These accounts are reviewed by: J. David Coker and/or Mike Byers

REPORTS: In addition to the monthly statements and confirmations of transactions that Portfolio Management Services clients receive from their broker-dealer, Coker & Palmer, Inc. will provide quarterly reports summarizing account performance, balances and holdings.

CONSULTING SERVICES

REVIEWS: While reviews may occur at different stages depending on the nature and terms of the specific engagement, typically no formal reviews will be conducted for Consulting Services clients unless otherwise contracted for. Such reviews will be conducted by the client's account representative.

REPORTS: These client accounts will receive reports as contracted for at the inception of the advisory engagement.

Item 14 Client Referrals and Other Compensation

It is Coker & Palmer, Inc.'s policy not to engage solicitors or to pay related or non-related persons for referring potential clients to our firm.

It is Coker & Palmer, Inc.'s policy not to accept or allow our related persons to accept any form of compensation, including cash, sales awards or other prizes, from a non-client in conjunction with the advisory services we provide to our clients.

Item 15 Custody

We previously disclosed in the "Fees and Compensation" section (Item 5) of this Brochure that our firm directly debits advisory fees from client accounts.

As part of this billing process, the client's custodian is advised of the amount of the fee to be deducted from that client's account. On at least a quarterly basis, the custodian is required to send to the client a statement showing all transactions within the account during the reporting period.

Because the custodian does not calculate the amount of the fee to be deducted, it is important for clients to carefully review their custodial statements to verify the accuracy of the calculation, among other things. Clients should contact us directly if they believe that there may be an error in their statement.

Excepting for investments in "The New South Fund", a private fund available only to those investors as described in Item 6 of this brochure, our firm does not have actual or constructive custody of client accounts.

Item 16 Investment Discretion

Clients may hire us to provide discretionary asset management services, in which case we place trades in a client's account without contacting the client prior to each trade to obtain the client's permission.

Our discretionary authority includes the ability to do the following without contacting the client:

- determine the security to buy or sell; and/or
- determine the amount of the security to buy or sell

Clients give us discretionary authority when they sign a discretionary agreement with our firm, and may limit this authority by giving us written instructions. Clients may also change/amend such limitations by once again providing us with written instructions.

Item 17 Voting Client Securities

As a matter of firm policy, we do not vote proxies on behalf of clients. Therefore, although our firm may provide investment advisory services relative to client investment assets, clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets. Clients are responsible for instructing each custodian of the assets, to forward to the client copies of all proxies and shareholder communications relating to the client's investment assets.

We do not offer any consulting assistance regarding proxy issues to clients.

Item 18 Financial Information

As an advisory firm that maintains discretionary authority for client accounts OR is deemed to have custody OR as disclosed above, is required to provide a copy of our firm's balance sheet, we are also required to disclose any financial condition that is reasonable likely to impair our ability to meet our contractual obligations. Coker & Palmer, Inc. has no such financial circumstances to report.

Under no circumstances do we require or solicit payment of fees in excess of \$1200 per client more than six months in advance of services rendered. Therefore, we are not required to include a financial statement.

Coker & Palmer, Inc. has not been the subject of a bankruptcy petition at any time during the past ten years.
